To whom it may concern

About the 3kg-packaging of our product **Durus EasyFinish** :

The weight of the 3kg-bags is secured in 2 steps:

- 1) The weight of each puck (single bundled fibre package) is checked once a shift (every 8 hours)
- 2) The weight of the bags is checked during packing at least every hour. If minimum is not met, extra fibres are added.

The tolerance on 1 bag is: 3,040-3,080kg.
